

The Road Home COVID Statement - April 10, 2020

With the recent confirmation of a second confirmed COVID-19 case at the Men's Resource Center (MRC), The Road Home would like to reiterate it is taking all necessary precautions and following guidelines set forth by the CDC and the Utah Department of Health. At the first sign of symptoms, the individual was promptly taken to the hospital, and he is currently being cared for at an appropriate facility. By direction of Salt Lake County Health Department all individuals at MRC will remain there for monitoring and testing. MRC is no longer accepting new guests, and guests will stay in the same bed to support social distancing. The Road Home's practices and partner collaboration are ensuring that any guest who is showing symptoms is tested and that everyone who tests positive is isolated outside of the Men's Resource Center in County operated isolation facilities. We appreciate the tremendous support provided by Salt Lake County Department of Health at this time and we are working with onsite health workers to closely monitor everyone at the Men's Resource Center and quickly respond to any changing circumstances.
