

THE ROAD HOME  
ANNUAL REPORT 2010

# THE MISSION OF THE ROAD HOME IS TO HELP PEOPLE STEP OUT OF HOMELESSNESS AND BACK INTO THE COMMUNITY.

The Road Home is a private non-profit social service agency that assists individuals and families experiencing homelessness in Salt Lake County and along the Wasatch Front. The Road Home provides emergency shelter and personalized case management to help residents identify and overcome the obstacles that have led them to becoming homeless. In addition to operating the largest shelter in Utah, we also address a spectrum of needs that people experiencing homelessness encounter from supplying a bus token to providing comprehensive housing programs that help people move into permanent housing as quickly as possible.

DEAR FRIENDS OF THE ROAD HOME,

It has been an extraordinary year at The Road Home. We are transforming our system and fundamentally changing our approach to homelessness through innovative programs, like permanent supportive housing and rapid rehousing.

- Over the course of a year, 330 people who had been in and out of shelter for years and would have appeared beyond hope to many, moved into permanent housing at Palmer Court.
  - As of this printing, 530 families, who turned to us when there was nowhere else to go, quickly returned to housing in the community with the help of our Rapid Rehousing Program.
- And that is just a small slice of what has been happening. As a result of these innovative methodologies, beds are opening up at the shelter and we are serving more people more effectively than ever before.
- For ten years, we have been bussing up to 200 men per night down to Midvale during the winter months.
  - This year, we have not had to bus a single man to the overflow shelter even though we are serving more people.
  - Last year, we housed three times more families than we sheltered 10 years ago.

Because of you, we are constantly innovating and adapting our strategies to serve people in the most effective and dignified manner possible. And our work must continue.

In 2010, we saw a 58 percent increase in the number families seeking shelter compared to two years ago. We will not turn anyone away. We will continue helping every person that comes to us in need; we will strengthen our commitment to expanding proven solutions, like permanent supportive housing; and we will continue forging new, innovative methods to address each challenge that presents itself. As you read this report and reflect on the many accomplishments of last year, think about how you have been a part of this success. Thank you for all that you have done. I ask you also to look forward to the new opportunities before us. Together, our thoughtful investments today can have a positive impact on people in our community for years to come.

Matt Minkevitch

Executive Director - The Road Home

As a result of innovative strategies in housing and shelter service delivery, we provided shelter to an additional 2,183 individuals this year, compared to 5 years ago.

WE DID SO WITHOUT HAVING TO CREATE A BIGGER SHELTER.

# EMERGENCY SHELTER

This year 875 children in Salt Lake City called the emergency shelter home.

In FY 10, The Road Home provided shelter to a total of:

- 532 Families (including 875 children)
- 3,406 Single men
- 702 Single women

The Road Home's Emergency Shelter provides beds for 509 men, 85 beds for women, and 31 rooms for families. We offer a variety of programs and services to best meet the specific needs of each family and individual that comes to us for help.

- In collaboration with Volunteers of America and the 4th Street Clinic, The Road Home sets aside a number of beds in the emergency shelter for those who require specific medical attention or are in need of substance abuse support.

Most people (61%) come to the shelter for a short period of time (6 weeks or less) and with minimal assistance, are able to move back out into the community. For those that need a little more help, supportive services provide that additional assistance.

From November to April, The Road Home operates the Community Winter Shelter, which acts as the community safety net to ensure that those most vulnerable in our community have a warm, safe place to sleep.

- In FY10, 83 (46%) more families turned to us for shelter in our Community Winter Shelter program than last year.

DURING THE WINTER SHELTER MONTHS THE ROAD HOME  
EXPANDS FROM SERVING AN AVERAGE OF 650 INDIVIDUALS PER  
DAY, TO SERVING 930 PER DAY.

The Community Winter Shelter opened in mid October due to  
inclement weather. We provided life saving shelter to:

- 264 FAMILIES
- 482 SINGLE WOMEN
- 2,566 SINGLE MEN

Children staying in The Road Home family shelter programs are enrolled in programs that offer enrichment activities, exercise, as well as helping the children with their homework. A variety of activities after school programs to visiting artists teaching fun new skills, provide an invaluable calm in the storm for children experiencing the change and loss associated with homelessness.

# SUPPORTIVE SERVICES

Our supportive services team members work side by side with people to help them connect with resources in the community that assist with income, employment, benefits, treatment for substance abuse and mental health, food and clothing assistance, and more.

Supportive service team members also work closely with local school districts, health care providers, child care programs and other child support organizations. The overriding goal of the supportive services team is to provide the support and guidance needed to find and maintain housing during this difficult transition period.

The Road Home provides a variety of supportive services including helping with travel assistance, Utah ID, local transportation, work boots and shoes, clothing, birth certificates and short-term case management services.

These services are available to anyone who needs help, whether they are enrolled in one of our programs or not.

IN FY10, OUR EMERGENCY SERVICES  
OFFICE PROVIDED

**9,479** SEPARATE SERVICES TO  
**3,899** UNIQUE INDIVIDUALS.

Some are seen only once for emergency travel assistance, while others return for continuing support services while working towards self-sufficiency.

# HOUSING

Our program is the largest supportive housing program in Utah for individuals and families emerging from homelessness. We currently provide supportive services to over 750 households each year. Our housing opportunities include a variety of subsidies and levels of services that allow us to align the appropriate level of supportive services with the needs of the individuals and families.

As individuals and families that have experienced chronic homelessness move out of the shelter system and into stable housing, capacity is created within the shelter system for many more individuals and families who only need the shelter for a short period of time.

In FY10, **777 households** were able to experience the joy of having their own home:

- 297 families through Rapid Rehousing
- 238 households at Palmer Court
- 242 households in a variety of housing options throughout the valley.

# ...PROGRAMS THAT MAKE A DIFFERENCE

## RAPID REHOUSING

Through incredible collaborative efforts, including federal, state, and local government funders, The Road Home was able to launch our Rapid Rehousing program in October 2009. The Rapid Rehousing program provides housing readiness assistance, short term rental subsidy and limited case management to families. Rapid Rehousing has been a much needed addition to our available housing options. This program allows families the jump start necessary to transition back into the community after experiencing a hardship or situational crisis.

## PALMER COURT

Palmer Court, which opened in spring of 2009 contains 201 rental units for chronically homeless individuals and families. The rich array of supportive services available at Palmer Court help to provide a stable, safe, permanent home for people who had previously spent years cycling through the homeless system. Supportive service team members help connect tenants with resources in the community relating to income, employment, federal benefits, referrals to treatment for substance abuse and mental health, food and clothing assistance. An on-site Head Start Program for children is operated by the Salt Lake Community Action Program.

From October, 2009 — June 2010, 297 families were rapidly re-housed. Of those, 30% (89 families) were able to stably maintain housing on their own after only 3 months of assistance.

Special thanks to the Lowell Bennion Community Service Center at the University of Utah. They have provided tremendous ongoing volunteers to support our Kid's Book Club, Playroom, and Teen Night Out Activities

# VOLUNTEERS

Our volunteer program has consistently grown over the past 3 years and continues to provide engagement opportunities for those in our community to help serve their neighbors. Volunteer activities focus on providing donations, children's activities, dinners, and front desk assistance. Approximately 19% of our volunteers are ongoing, weekly volunteers and 81% are part of groups that have provided a one-time service.

IN FY10 **8460** VOLUNTEERS SPENT **17,649** HOURS PROVIDING SERVICES  
AT THE ROAD HOME, HELPING TO SAVE THE AGENCY **\$303,563!**

# DONATIONS

The Road Home receives generous support from the community through in-kind donations. In-kind donations can include toiletries, blankets, clothing, and more. The Road Home is extremely grateful to the community for their on-going support.

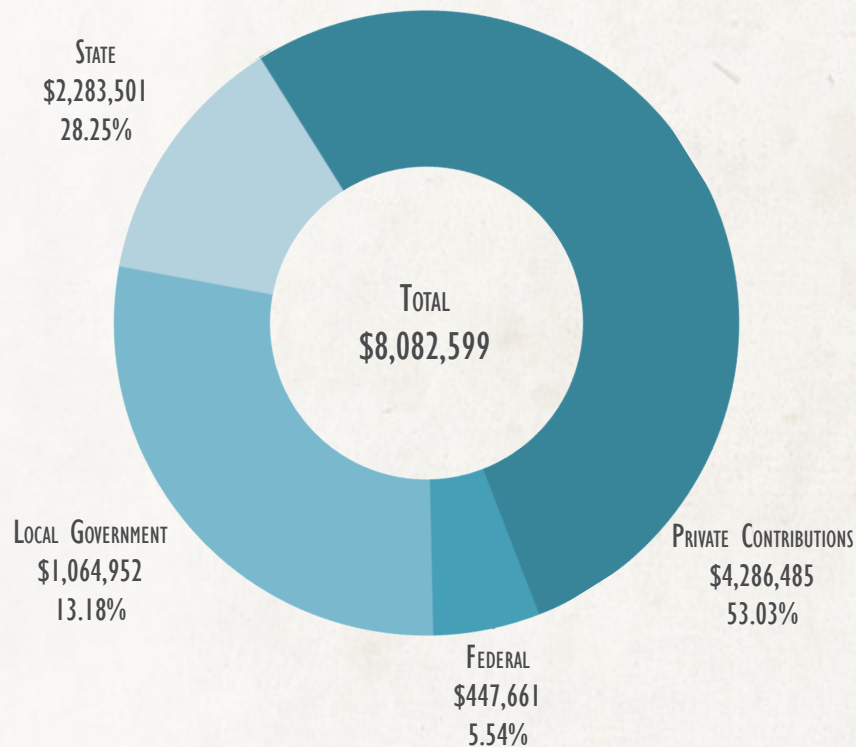

The average number of clients housed by our various housing programs is roughly equivalent to the number of individuals residing at the emergency shelter on a daily basis.
